RE: Fundraising and Donations

Hello,

As you may have recently seen in various media sources, our association **Templiers – Post Tenebras Lux** is a non-profit motorcycle association, recognized as a public utility, whose purpose/mission is to protect abused, bullied, and mistreated children.

Our association and its members act voluntarily in order to help children suffering from all kinds of abuse, such as peer harassment/bullying in school, physical and psychological violence and sexual abuse.

Our work consists in supporting these children and their families (depending on the situation, this may include a contribution to medical and/or legal expenses); additionally, we work to promote our actions to the public and to specialized institutions (distribution of leaflets, sale of promotional merchandise, participation in events in French-speaking Switzerland, motorcycle rides for children, etc.).

Today, we are appealing to your support and generosity towards our mission.
(A certificate of donation will be provided for your tax filing.)

We thank you for your time and for the interest you will grant our cause. We remain at your entire disposal for any further information.
